

Build your pink tumbler.

78 pieces. 34 illustrated steps.

Take it one step at a time.

Find the pieces in the pale-yellow box.

Match their orientation to the picture.

Follow the red arrows to attach them.

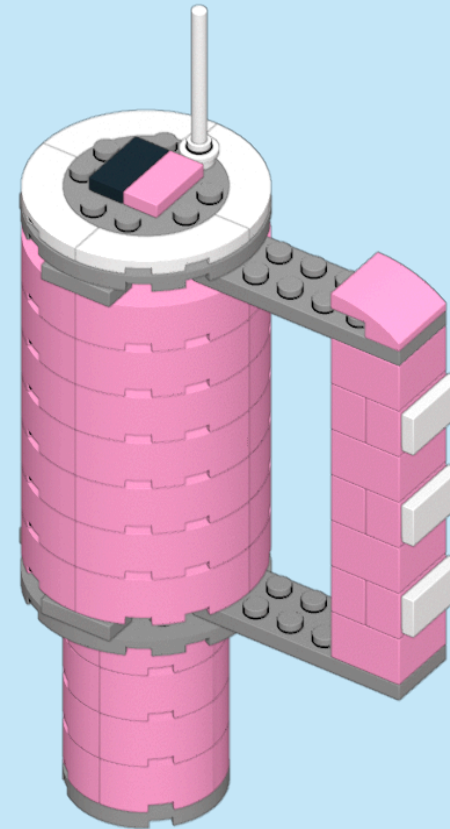

Check the small finished view before moving on.

PINK EDITION

15.7 cm tall including the straw

Support the cup while building the handle.

If a connection resists, stop. Do not force it.

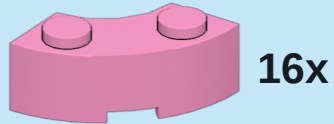

Before you start

Sort your 78 pieces. Quantities below are for one pink tumbler.

Part numbers are LDraw design IDs. Pictures are enlarged and are not a size guide.

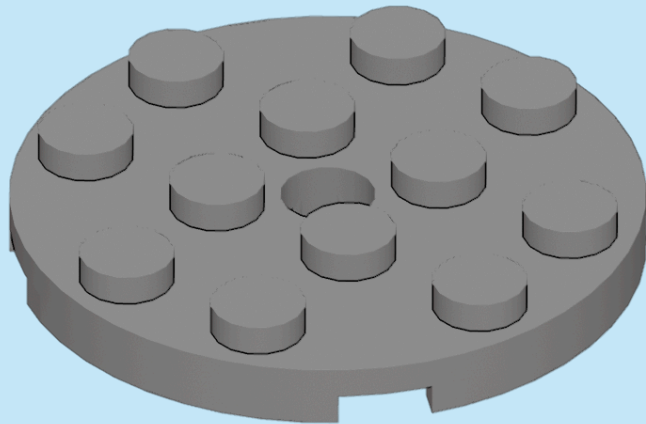

The clear straw is drawn opaque for legibility. Custom lettering is not a stock brick.

1

1x
60474

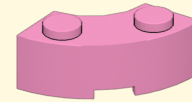

Start with the base

AFTER STEP

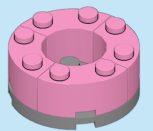

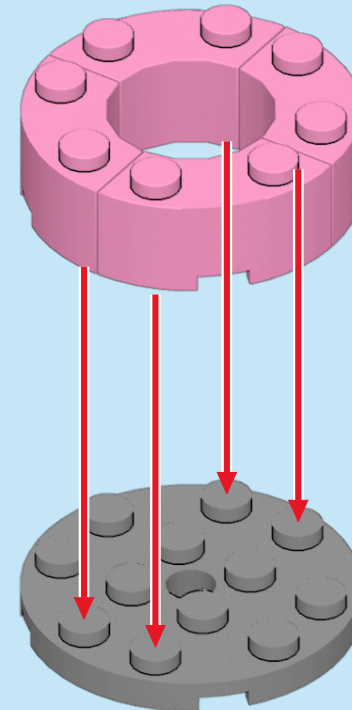

Studs face up.

2

4x
85080

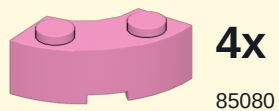

Build the narrow foot

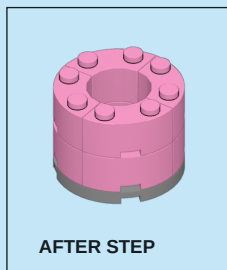

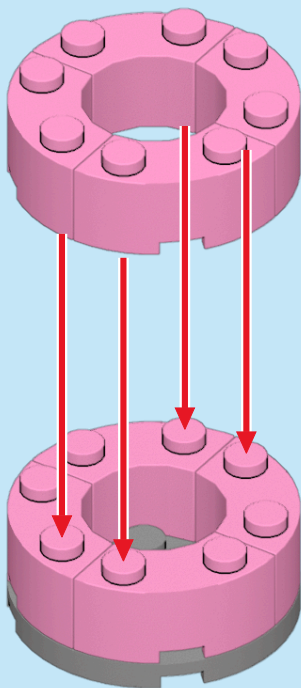

AFTER STEP

Four curved bricks make one complete ring.

3

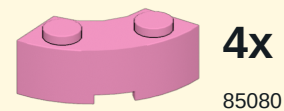

Build the narrow foot

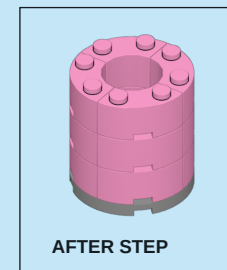

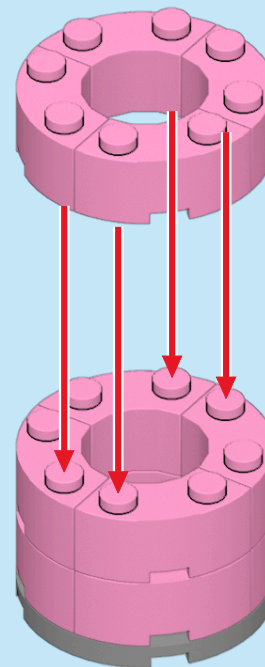

Four curved bricks make one complete ring.

4

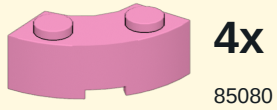

Build the narrow foot

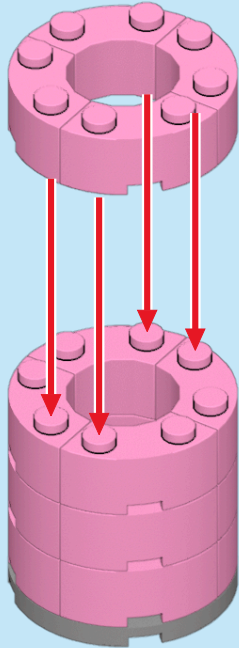

Four curved bricks make one complete ring.

5

Build the narrow foot

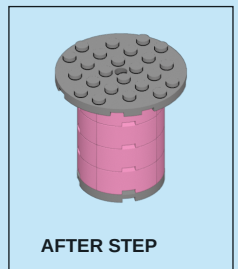

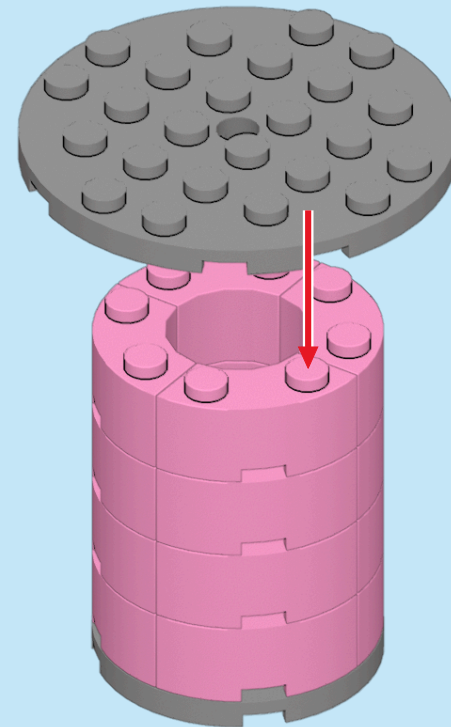

Four curved bricks make one complete ring.

6

Widen the shoulder

Center the larger round plate over the foot.

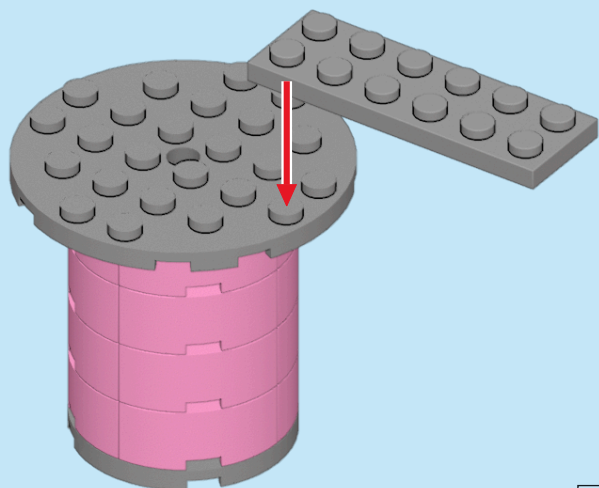

7

1x

3795

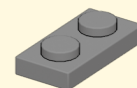

Start the lower handle arm

AFTER STEP

The long plate extends to the right.

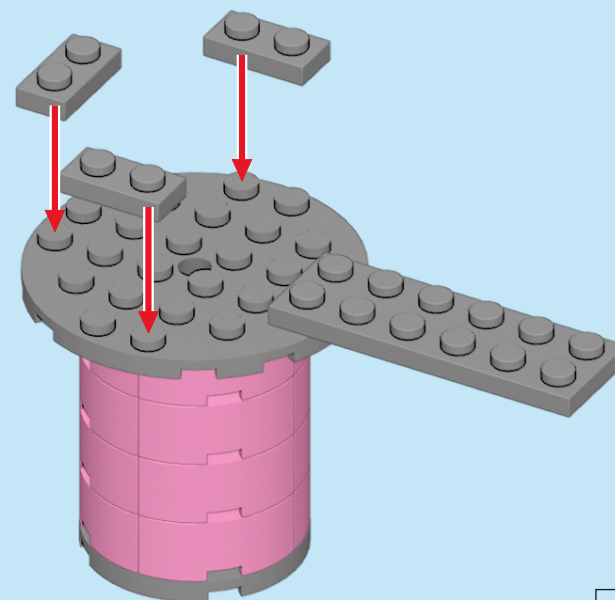

8

3x

3023

Complete the shoulder

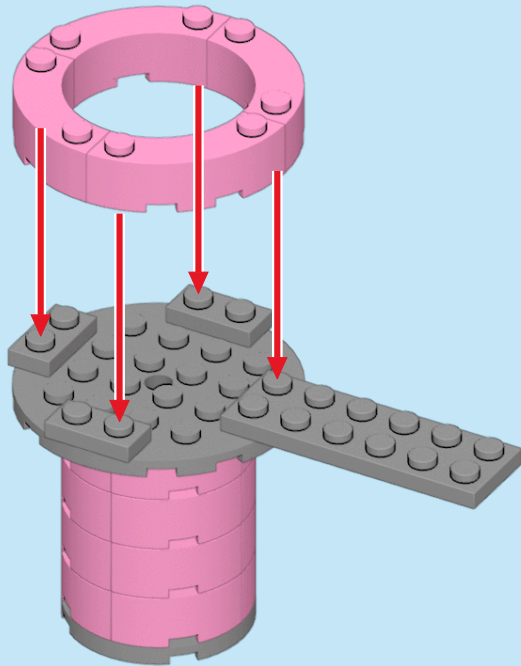

AFTER STEP

Fill the three spaces around the rim.

9

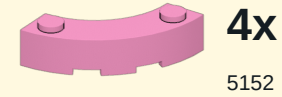

Build the cup wall

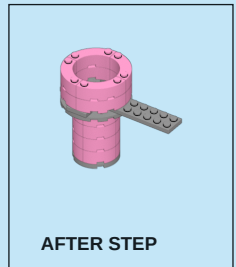

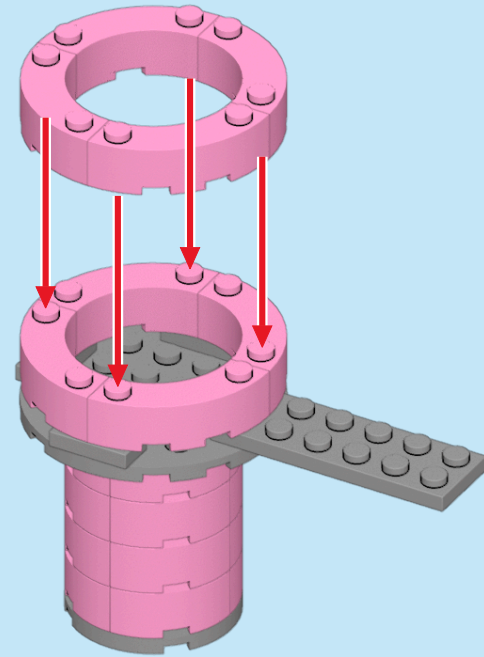

Add a complete ring. Keep the center hollow.

10

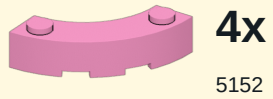

Build the cup wall

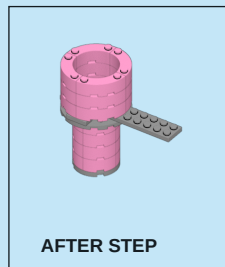

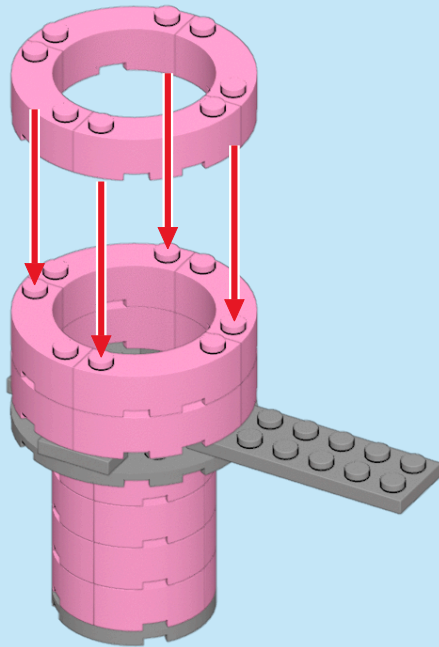

Add a complete ring. Keep the center hollow.

11

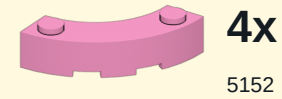

Build the cup wall

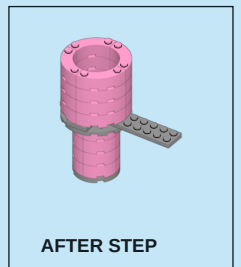

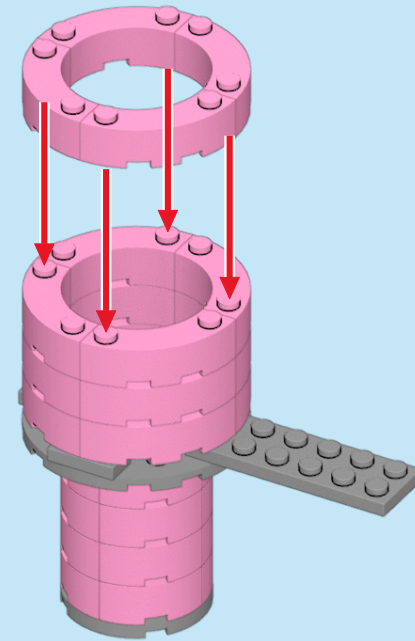

Add a complete ring. Keep the center hollow.

12

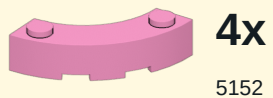

Build the cup wall

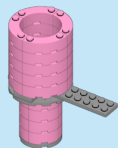

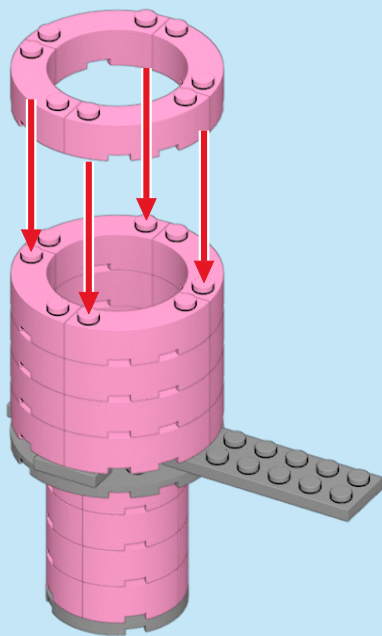

Add a complete ring. Keep the center hollow.

13

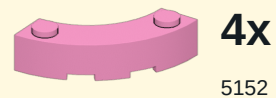

Build the cup wall

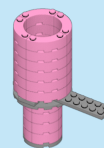

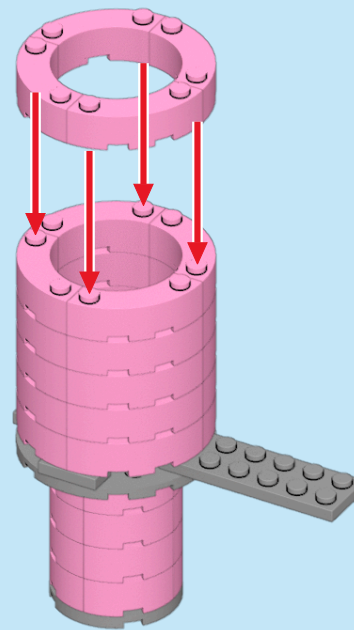

AFTER STEP

Add a complete ring. Keep the center hollow.

14

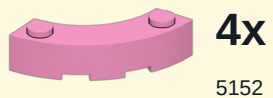

Build the cup wall

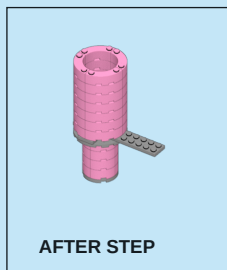

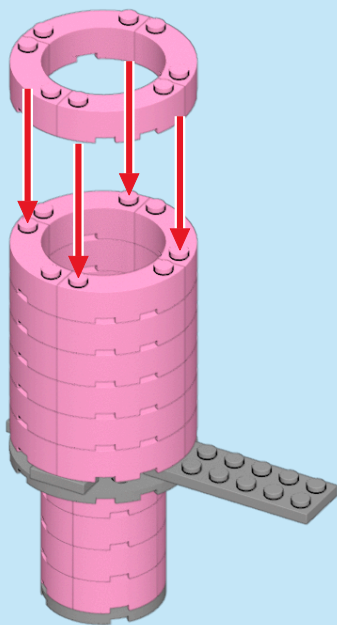

AFTER STEP

Add a complete ring. Keep the center hollow.

15

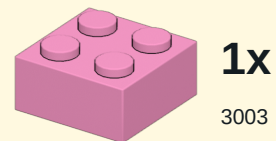

Build the cup wall

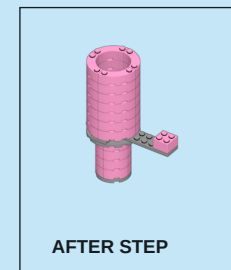

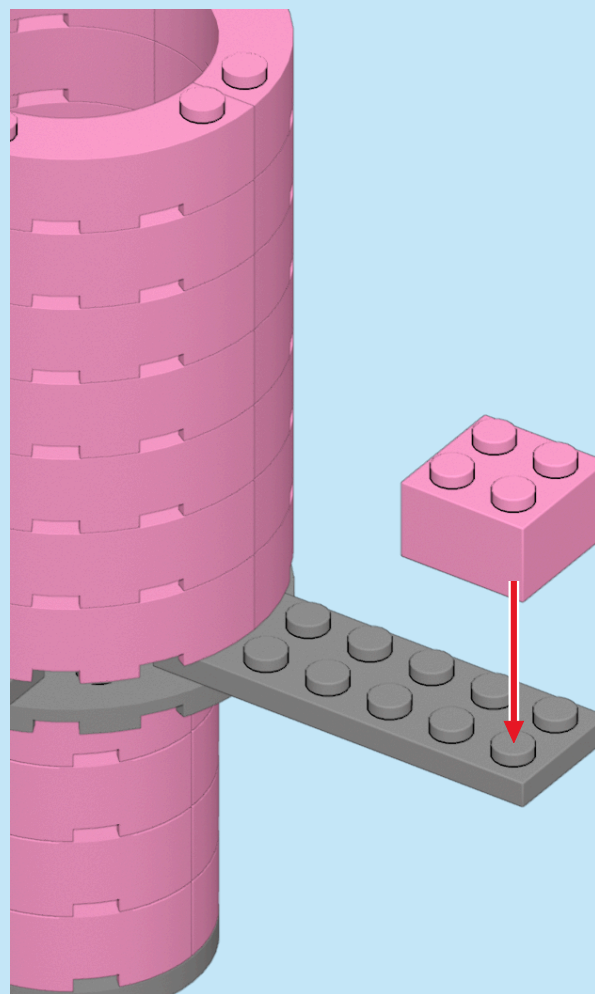

Add a complete ring. Keep the center hollow.

16

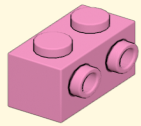

Start the handle

ENLARGED VIEW

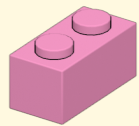

Place at the outer end of the arm. Support the cup.

17

1x

11211

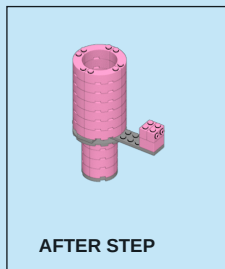

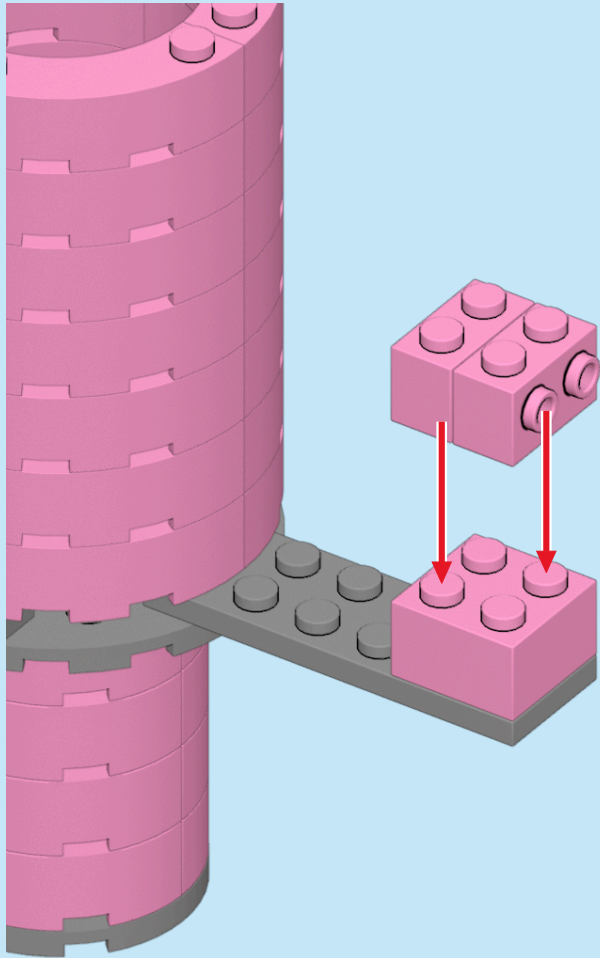

1x

3004

Add the side-stud bricks

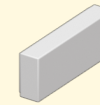

ENLARGED VIEW

AFTER STEP

The side studs face outward, away from the cup.

18

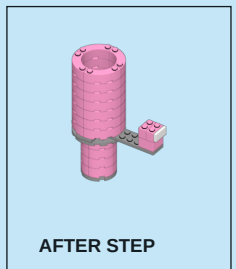

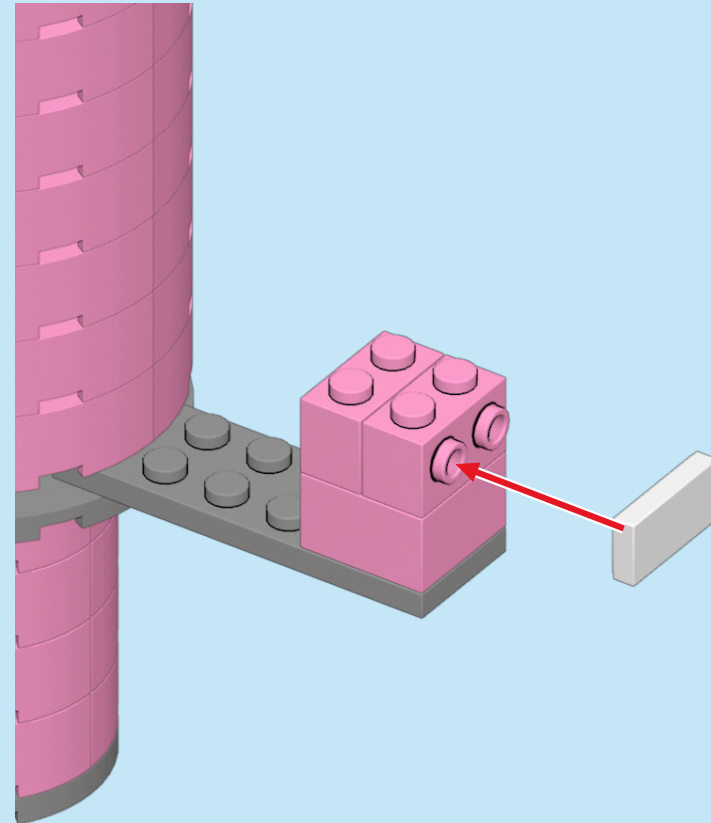

1x

3069b

Press on a grip panel

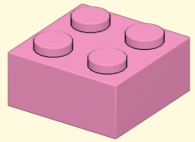

ENLARGED VIEW

AFTER STEP

Press sideways onto the two exposed studs.

19

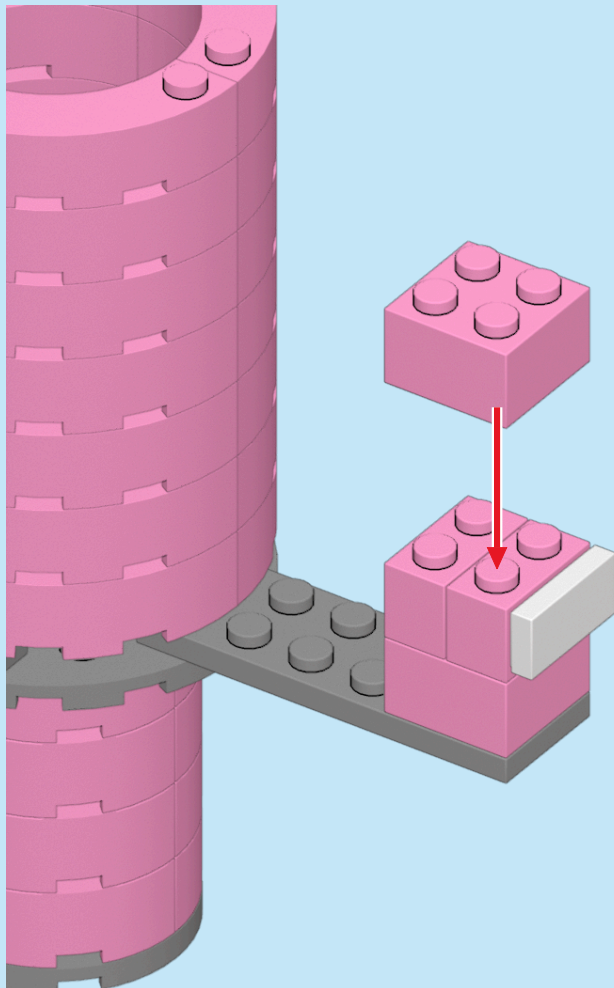

1x

3003

Continue the handle

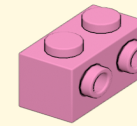

ENLARGED VIEW

AFTER STEP

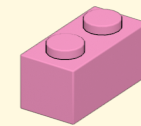

Cover both bricks below with one square brick.

20

1x

11211

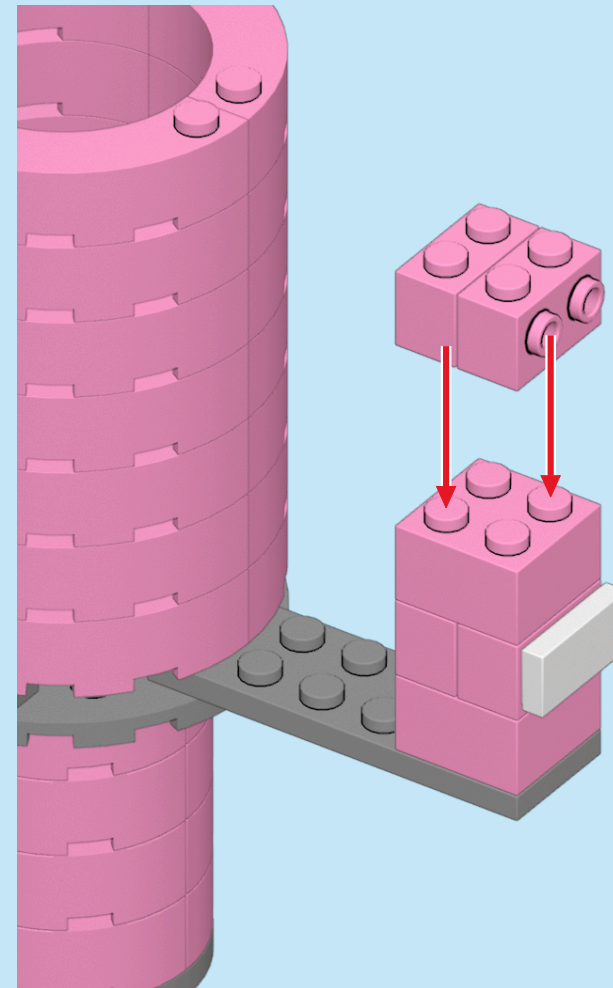

1x

3004

Add the side-stud bricks

ENLARGED VIEW

AFTER STEP

The side studs face outward, away from the cup.

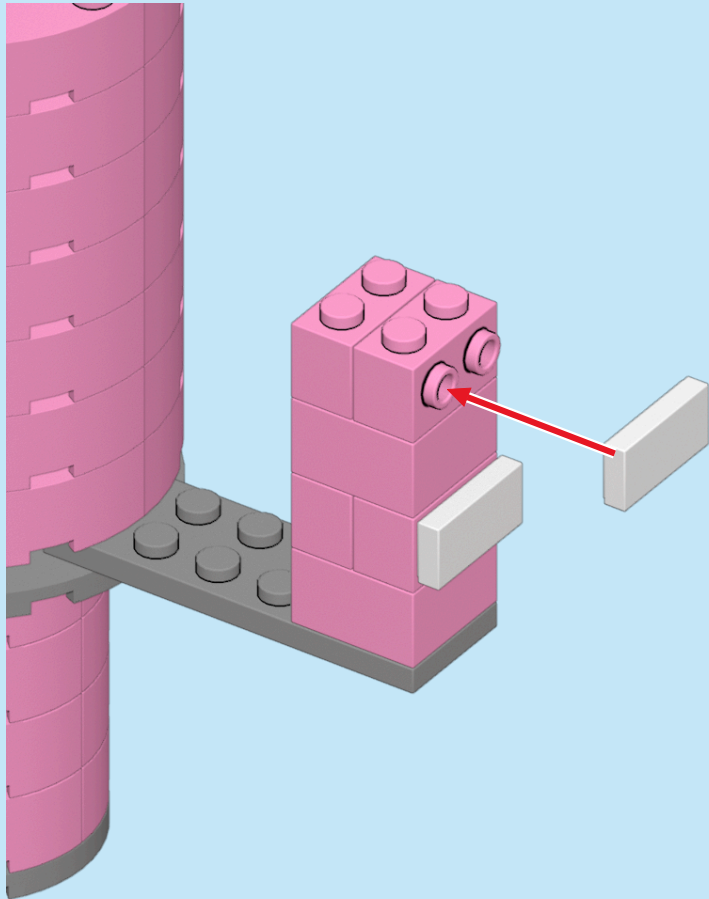

21

1x
3069b

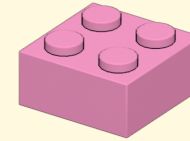

Press on a grip panel

ENLARGED VIEW

Press sideways onto the two exposed studs.

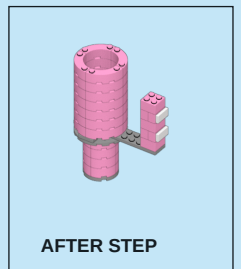

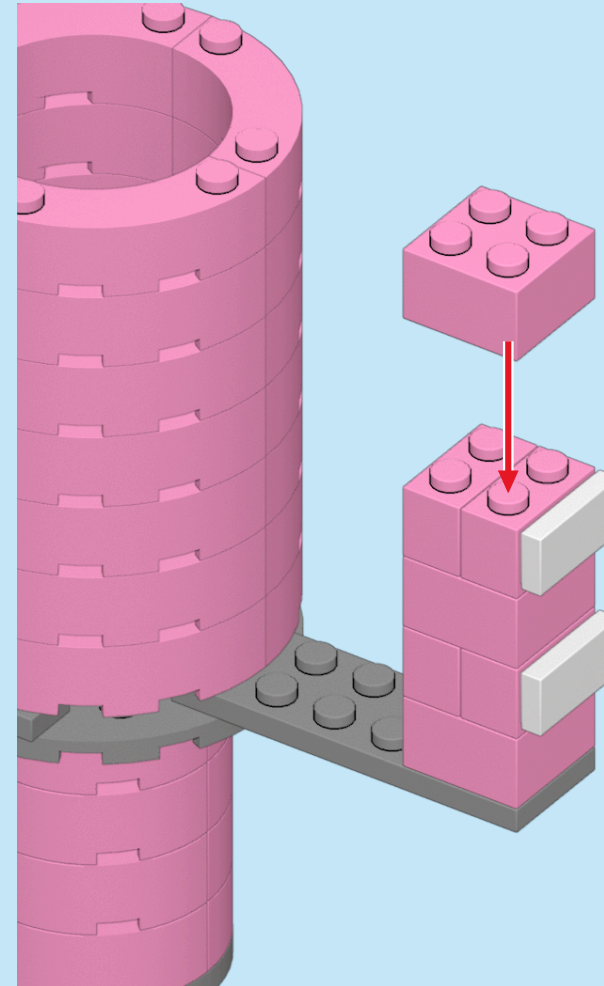

22

1x
3003

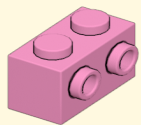

Continue the handle

ENLARGED VIEW

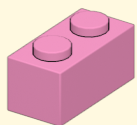

Cover both bricks below with one square brick.

23

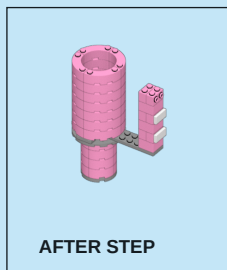

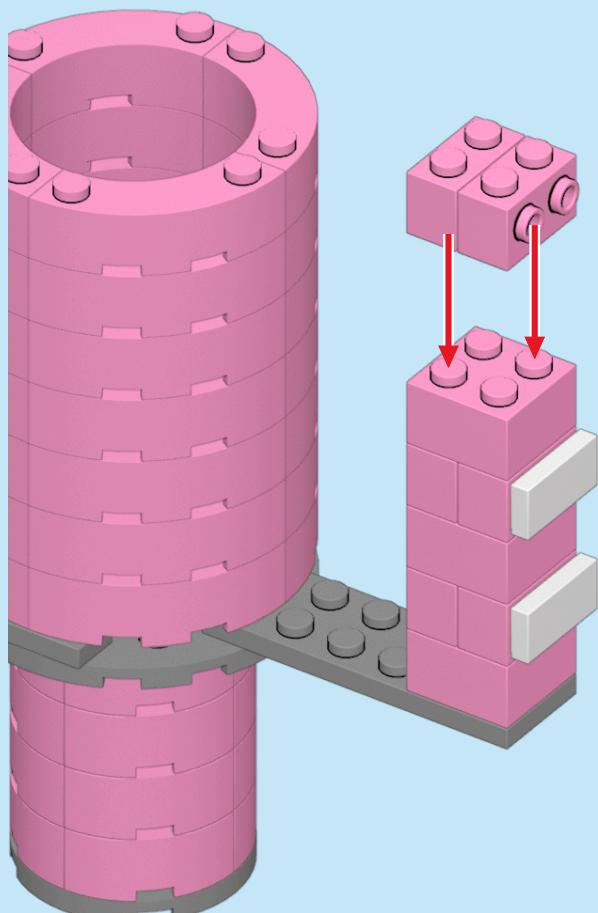

1x

1x

11213

Close the cup

ENLARGED VIEW

Center the round plate over the cup.

30

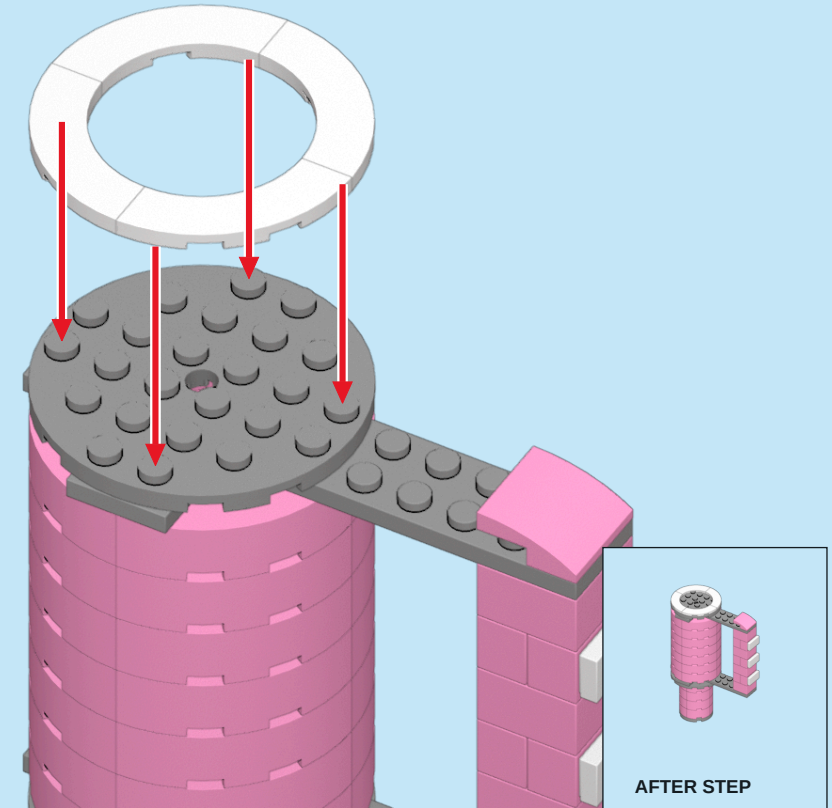

4x

79393

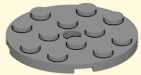

Add the white lid rim

ENLARGED VIEW

Four quarters make the outer ring.

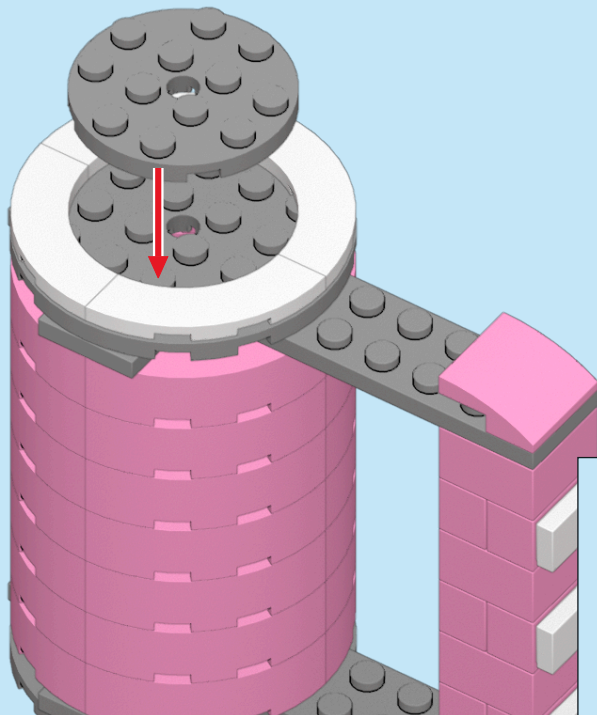

31

1x
60474

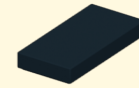

Fill the lid center

ENLARGED VIEW

Fit the smaller round plate inside the white ring.

32

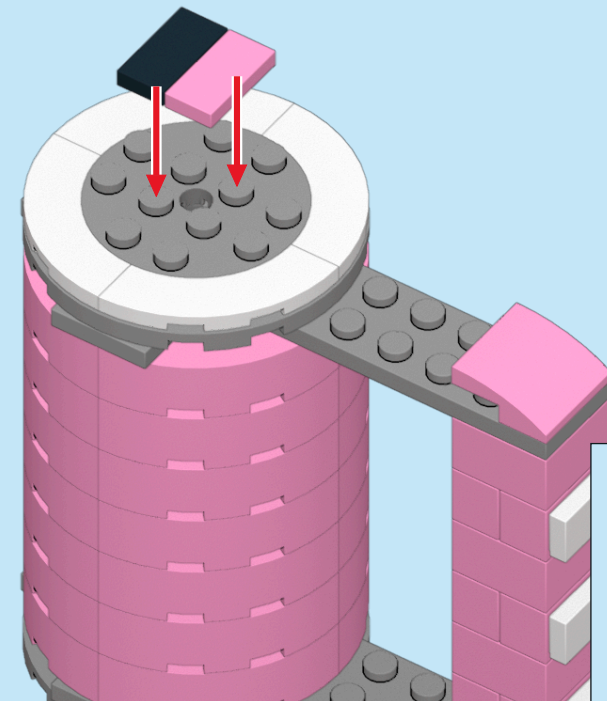

1x
3069b

1x
3069b

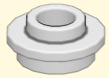

Add the lid panels

ENLARGED VIEW

Black on the left, pink on the right. These panels are fixed.

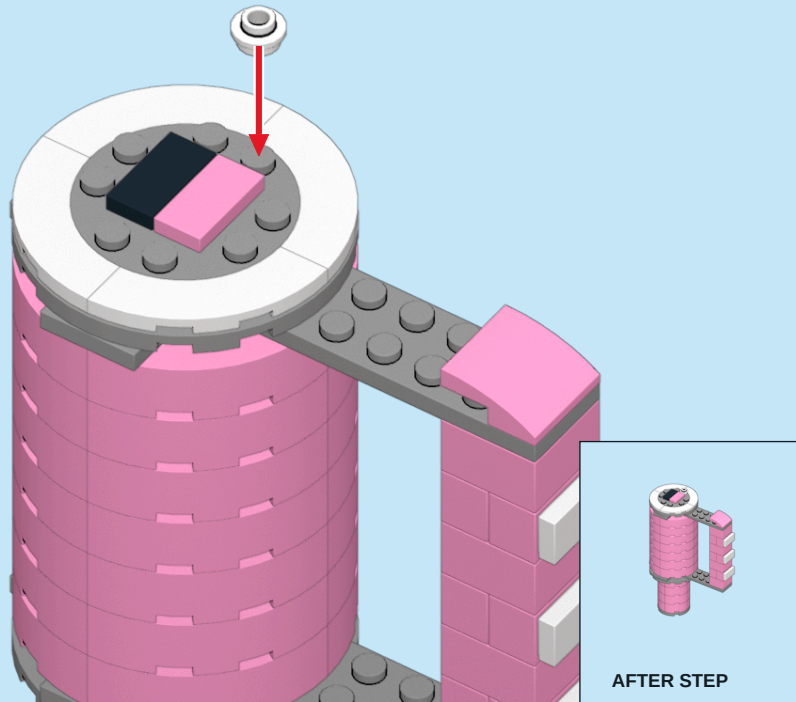

33

1x
85861

Add the straw socket

ENLARGED VIEW

Use the round plate with an open center stud.

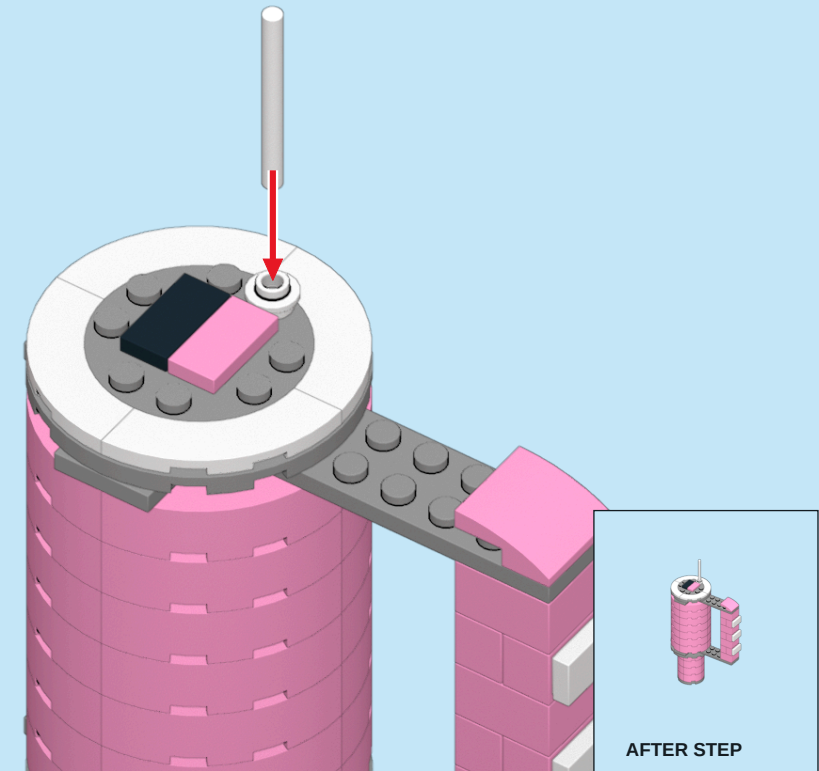

34

1x
30374

Insert the straw

ENLARGED VIEW

Gently insert the bar into the open stud. Do not force it.

All together.

78 pieces, from base to straw.

Check the rim and each ring of the body.

Check all three white handle panels.

Lift the model by supporting the cup body.

Optional lettering

The product preview shows a separate white STANLEY sticker concept.

Apply only after completing the brick build.

Sticker artwork and production are not included in this prototype guide or its 78-piece inventory.

Independent design study.

Not an official LEGO or Stanley product.
